DETAILED ACTION

1. Claims 24, 33, 34 and 37-39 are pending as amended on 16 October 2006, claims 1-23, 25-32, 35-36 and 40-44 being cancelled.
2. The text of those sections of Title 35, US Code not included in this action can be found in a prior Office action.
3. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 16 October 2008 has been entered.
4. It is noted that claim 24 carries the status identifier 'Previously Presented', yet from the marked-up claim and the simultaneously filed remarks it is obvious that the claim has been amended. As a courtesy to applicant and in the interest of compact prosecution, claim 24 was construed to carry the status identifier 'Currently Amended'.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided

by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Karen Tripp on 18 November 2008.

The application has been amended as follows:

Please amended claim 24 as follows:

24. (Currently Amended) A method of drilling a wellbore in a subterranean formation, said method comprising the steps of obtaining or preparing a drilling fluid comprising an invert emulsion wherein the invert emulsion has a base or continuous phase comprising a blend of isomerized olefins and paraffin hydrocarbons blended with esters, and wherein the esters comprise ~~at least~~ between about 50 weight percent and less than about 99 weight percent of the blend, the paraffin hydrocarbons comprise ~~less than~~ between about 1 weight percent and about 50 weight percent of the blend and the isomerized olefins comprise ~~less than~~ between about 1 weight percent and about 50 weight percent of the blend, and circulating the drilling fluid in the wellbore during drilling.

Response to Amendment and Arguments

5. Applicant's argument, specifically that range endpoints of about 50 weight percent for the ester, isomerized olefin and paraffin hydrocarbon components for the blend is fully supported by the original specification and therefore is not new matter, has been fully considered and is persuasive.

The rejection of claims 24, 33, 34 and 37-39 under 35 USC 112, first paragraph, as failing to comply with the enablement requirement has been withdrawn.

6. The examiner's amendment above, limiting the ester component of the blend to between about 50 and about 99 weight percent of the blend, overcomes the following:

The rejection of claims 24, 33, 34 and 37-39 under 35 USC § 103(a) as being unpatentable over US Patent 5,691,281 (Ashjian hereinafter) has been withdrawn.

Allowable Subject Matter

7. Claims 24, 33, 34 and 37-39 are allowed.

The following is an examiner's statement of reasons for allowance: Ashjian, the closest prior art, teaches a similar method using a similar composition to that instantly claimed, but limits the ester component to 45 weight percent.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy J. Kugel whose telephone number is (571) 272-

1460. The examiner can normally be reached on 5:30 AM - 4:00 PM Monday - Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on (571) 272-1302. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
